Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Based on the exhibit presented by Mr. Lazarus, it appears that Osborne et al. '445 should not be applied as prior art against the claims in the application and accordingly the claim rejections under Osborne et al. '445 should be withdrawn; this will be verified in a meeting this week with the in-group Quality Assurance Specialists, Mr. Terry Melius and Ms. Darnell Jayne. Applicants will also file an amendment this week and an updated search of the prior art will be conducted upon receipt of the amendment.
